Stronghold Heavy Duty safes are a commercial grade safe manufactured for the Australian market and designed to a very high standard exclusive to MSC Safe Company.

- Body: fully welded 8mm steel and 12mm fire Board
- Door: has an overall thickness of 80mm, fitted with hard plate over the vital areas as well as relocking devices, fitted with 4 way bolt work. Hardened anti drill plate surrounding the lock.
- Insurance Cover: A conservative suggested risk rating of cash and valuables for the Stronghold safes would be \$60,000 in a supported situation.
- Anchoring: 4 x recessed holes are provided for concrete bolts to mount to the floor.
- Locking: High Security Australian manufactured digital Ross lock
- Hinge: Exterior lift off hinges and internal hinge attack resistant
- Bolts: Heavy 30mm bolts provide a 7 way locking into reinforced sections of the sides and top and bottom of the safe body
- Fire Protection: 30 Minutes Fire Protection
- Warranty: 5 warranty on Body with an extended 2 year warranty on locks

Total 3 years on lock
