WENTWORTH SAFES

EXCLUSIVE TO MSC SAFE CO.

## WS SERIES

Wentworth Heavy Duty safes are manufactured for the Australian market and designed to a very high standard exclusive to MSC Safe Company.

A conservative suggested risk rating of cash and valuables for the Wentworth safes would be \$60k in a supported situation.

## FEATURES

### BODY

Fully welded 8mm steel and 12mm fire board with fire seals fitted around door offering 30minutes fire rating.

### DOOR

Door thickness of 12mm, fitted with hard plate over the vital areas as well as re-locking devices to prevent heavy handed attacks.

### BOLTWORK

Fitted with 4 way bolt work, hardened anti drill plate and heavy 30mm bolts provide a 7 way locking into reinforced sections of the sides and top and bottom of the safe body.

### ANCHORING

4 x recessed holes are provided for concrete bolts for floor mounting.

### LOCKING

Fitted with a high security Australian manufactured digital Ross lock with option for key or dial combination available.
